Call for Presentations (CFP)

- Volunteers should NOT use CFP; use “Add” session link
- The CFP is an important part of the scheduling process.
 - An important source of new content and speakers. Keeping the conference content fresh is an important goal for the survival of SHARE
 - A primary way for new people to make contact and become involved in SHARE
 - A way for sponsor vendors to present their technical content and support their continued participation in SHARE
 - Lack of response (or poor response) to CFP submissions reflects badly on the SHARE organization
