Our Purpose

The MVS Core Technologies Project is concerned with a broad spectrum of mainframe-related topics that provide in-depth exploration of IBM's flagship platform in both the hardware and software realms. Hardware areas of interest include System z processor, zBX/blades, HMC/zManager, coupling facilities, time services, and I/O connectivity. Software areas of interest include z/OS operating system components, subsystems and applications such as RSM, VSM, IOS, Parallel Sysplex, JES2, JES3, TSO/E, ISPF, z/OS UNIX, zFS, Ported Tools, z/OSMF, and enterprise presentation solutions such as Infoprint. Advanced sessions will discuss architecture, installation, configuration, migration, service, problem determination, and exploitation of the latest System z and z/OS capabilities. Tools such as ServerPac, HCD/HCM, SMP/E, IPCS, and others are regularly discussed. The Project also offers sessions for those who are new to the platform, intended to help them quickly integrate into their environment and acquire mainframe skills and understanding of the platform, especially in z/OS.

I bet he could disco!

Electric Dragon Slide!

Future astronaut or photographer?

Neither. Bit Dragon.

Some youthful angst here...

But no more!

I would never embarrass my own volunteers...or would I?

Burt Reynolds or
Tom Conley?

Epstein or Glenn
Hanna?

Kirk Cameron
or James Lund?

The lovely lady who never ages!

The IBMers FB pages were elusive... But I snagged Amy Bildzok and Jeff Magdall

**I would never make fun of my volunteers
without doing the same for myself...**

Our Speakers This Morning

- z/OS Service Hot Topics from Jerry Ng (IBM Level 2)
- z/OS Hot Topics from Riaz Ahmad (IBM WSC Advanced Technical Support and IBM Project Representative)
- z/OS 2.1 Intro with John Eells (IBM Poughkeepsie)
- On-line session evaluations
 - See bottom of every slide in every presentation or use QR codes
 - **I read **all** comments you make.**
- SESSION CHAIRS STILL NEEDED! Please volunteer! See Mary Anne for MVS Core Technologies or any of the other Project managers of their respective Projects.
- **Enjoy your week at SHARE!**
