	Monday	Tuesday	Wednesday	Thursday	Friday
8:00			Exploit Condition Handling in Language Environment (LE) <i>Room 301</i>		Heap Damage, Get Into the Zone! <i>Room 301</i>
9:30	Language Environment for Dummies <i>Room 301</i>	What's New In Enterprise PL/I and C/C++ <i>Room 301</i>	How to Take Advantage of the New COBOL V5 Compiler - Migration <i>Room 301</i>	Finding Debugging Clues in Language Environment Dumps <i>Room 301</i>	REXX Language Coding Techniques <i>Room 203</i>
11:00	ZOMG The Next COBOL Compiler Has Arrived! <i>Room 301</i>		An Introduction to IPCS for Application Programmers <i>Room 301</i>		Look What I Found Under the Bar! <i>Room 203</i>
1:30			REXX programming for the z/OS programmer <i>Room 207</i>		
3:00		An Introduction to Using REXX with Language Environment <i>Room 207</i>			
4:30		Heapzones and Pageframes and Blocks, Oh My! (or We're Off to See the z/OS 2.1) <i>Room 203</i>	Language Environment Futures Workshop and AMODE 64 Discussion <i>Room 203</i>	Make Your PL/I and C/C++ Code Fly With the Right Compiler Options <i>Room 203</i>	
6:00				Nextgen COBOL Reference Architecture <i>Room 203</i>	
7:00			Dinner - LANG Project Rib Joint Expeditionary Force <i>Meet in Sheraton Lobby</i>		

...but wait, there's more...

[SHARE 121 in Boston Language Environment, COBOL, PL/I, C/C++, and REXX Session Grid](#)

The Language Environment, COBOL, PL/I, C/C++, and REXX project has quite a lineup of sessions in Boston. We have sessions on the new IBM Enterprise COBOL v5.1 compiler announced in June, and what's new in PL/I and C/C++ in addition to the popular PL/I and C/C++ performance session at 4:30 on Thursday. Our Language Environment sessions include sessions on memory management and debugging, with content specifically targeted at changes coming with z/OS 2.1. We also have presentations on several different aspects of REXX including a user presentation at 1:30 on Wednesday. At 6:00 Thursday evening we have a user presentation on COBOL, including agile COBOL development.

Dinner - LANG Project Rib Joint Expeditionary Force - Dutch treat dinner with the Languages and Language Environment folks. Everyone is welcome! There will be a sign-up sheet in the LANG sessions so we can get an approximate headcount for making a restaurant reservation. We will meet in the lobby of the SHARE event hotel. Come and share a meal with us, it's always a good time!

...but wait, there's more...
