

MVS Core Technologies Project (MVSE) Opening and WSC Hot Topics

Mary Anne Matyaz

Manager—MVS Core Technologies Project

March 10, 2014 11:00 AM
Session Number 14654

Our Purpose

The MVS Core Technologies Project is concerned with a broad spectrum of mainframe-related topics that provide in-depth exploration of IBM's flagship platform in both the hardware and software realms. Hardware areas of interest include System z processor, zBX/blades, HMC/zManager, coupling facilities, time services, and I/O connectivity. Software areas of interest include z/OS operating system components, subsystems and applications such as RSM, VSM, IOS, Parallel Sysplex, JES2, JES3, TSO/E, ISPF, z/OS UNIX, zFS, Ported Tools, z/OSMF, and enterprise presentation solutions such as Infoprint. Advanced sessions will discuss architecture, installation, configuration, migration, service, problem determination, and exploitation of the latest System z and z/OS capabilities. Tools such as ServerPac, HCD/HCM, SMP/E, IPCS, and others are regularly discussed. The Project also offers sessions for those who are new to the platform, intended to help them quickly integrate into their environment and acquire mainframe skills and understanding of the platform, especially in z/OS.

New Winners, New Prizes Each Day

Tweeting onsite can enhance your experience in numerous ways, including giving you the chance to win some pretty cool prizes. Starting on Sunday, we'll be hosting daily contests with different themes and different prizes. Follow the daily submission instructions and tweet your contest entries using the hashtag #SHAREorg. May the best submissions win!

Contest Rules:

- One winner per day
- You can only win once
- Entries will be selected via Twitter submissions, but feel free to take pictures with Instagram (as long as you cross-post to Twitter)
- Multiple Submissions are allowed per day

Sunday: Top Travel Photo

Whether you're en route to Anaheim via plane, train or automobile, we're sure you've seen some things. Fleeing unusual weather? Get seated next to a celebrity on your flight, or two people with pets? Tweet us unusual or interesting travel photos for a chance to win a really handy travel tool, the Kensington Absolute Power Charger.

Monday: Most Shared Keynote Tweet

Was one of your tweets the most retweeted during the opening general session on Monday? Well then, you will win a Jawbone Up band - a cool device that can track your physical activity and sleep, and measure the steps you take walking the halls at SHARE in Anaheim!

Tuesday: Expo Hall Tweet

This one's a cinch. Tweet us an interesting photo taken in the Expo Hall and you'll automatically be entered into Tuesday's contest. The winner gets a neat impromptu party gift - the Jawbone Jambox.

Wednesday: Overheard in the Hallways

15350: System z IBM Executive Panel

- Monday, March 10, 2014: 3:00 PM-4:00 PM
 - Grand Ballroom Salon K (Anaheim Marriott Hotel)
- Please join us with the IBM System z Executive Team for an open and interactive panel discussion around any of your System z questions.
- Executives on the Panel (tentative):
 - Mark Anzani VP, Portfolio and Technical Strategy, System z at IBM
 - Maria Boonie System z Software Development
 - Jose Castano Director: System z Growth Initiatives at IBM
 - Ray Jones Vice President of System z Software Worldwide Sales
 - Phil Weintraub Vice President, North America IBM System z Software Sales
 - Hayden Lindsey Vice President & Distinguished Engineer, Enterprise Modernization and Emerging Technologies
 - Mike Desens Vice President & BLE for System z (SHARE Executive Sponsor)
 - John Birtles Director, System z Portfolio Products
 - Linda Ban Global CIO Study Program Director

z/OS Requirements: Influencing IBM Development, Monday 12:15 (next!) Right here.

- Requirements Committee: Cheryl Watson (Chair), Dave Whitney (IBM), Laura Carbone (IBM), Tom Conley, Ed Jaffe, Robert Jenkins, Sam Knutson, Mary Anne Matyaz, Bill Smith, Glenn Hanna
- Over the past few years, IBM and SHARE have re-energized the requirements process.
- The SHARE requirements process is how YOU help to influence IBM's development priorities to get the functions we all need implemented. Attend this session, even if only to listen.
- There were many SHARE requirements fulfilled in z/OS 2.1.

Kudos to the planning/scheduling team

- This is a tremendous undertaking and we are all volunteers.
- Please join me in thanking the rest of the **planning team** for organizing an outstanding agenda:
 - Dave Whitney, IBM
 - Steve Warren, IBM
 - Tom Conley, Pinnacle Consulting
 - Gordon Daniel, New Era Software
 - James Lund, Texas A & M University
 - Greg Shriver, CA Technologies
 - Jerry Whitteridge, Safeway
