# Our Purpose

The MVS Program is concerned with a broad spectrum of mainframe-related topics that provide in-depth exploration of IBM's flagship business platform.

We focus on function, performance, installation, configuration, service, management, problem diagnosis, future directions, and tactical and strategic positioning of System z and attached peripheral hardware, the z/OS operating system, and beyond...

# MVS Program Survey

- The MVS Program recently conducted another survey of the SHARE membership.
  - Thanks to all of you that participated!
- Our intention was to determine which z/OS enhancements have been exploited by the MVS community, and which need additional training or support through SHARE conferences or other offerings.
- Cheryl Watson will present the results of the survey in session 15567: **Exploiting z/OS - Tales From the MVS Survey**, Fri 10:00am, Room 406

# SHARE MVS Community Blogs

- The MVS Program has its own “Community” on the SHARE web site at <http://www.share.org>
- Among many other items of interesting information you will find the following three (now public) blogs:
  - **The MVS Program Blog:** Mary Anne Matyaz (aka “z/OSSY girl”) and her guest bloggers keep you informed about all things MVS. They have fun writing it; we have fun reading it!
  - **The MVS EWCP Project Blog:** Meral Temel and guest bloggers discuss performance-related topics affecting the System z platform.
  - **Marna’s Musings:** Marna Walle entertains and educates her many followers in a unique and whimsical way.
- Sign up and add these blogs to your “favorites” to get automatically notified when there are new postings.

# Our Speakers Today

- **Jerry Ng**, from z/OS Software Service, will provide his Level 2 update on important recent z/OS APARs
- **Jeff Magdall**, IBM z/OS Product Development Team Lead, will give us an update on IBM's z/OS development activities and futures.
